

# Southern Cal Management

---

June 17, 2008

Reema Rajani  
Adcon Business Solutions, Inc.

Dear Reema,

This letter is to offer our complete appreciation and satisfaction with Adcon services this past year. Southern Cal Management is a small, but growing company. We found our business in dire need of professional assistance when we made an in-house accounting change to Quick Books. While we were trying to better serve our client list, we quickly realized that we needed help to achieve this goal.

Adcon has been a real “business saver” right from the start. Your ability to patiently explain and demonstrate the finer details and operations of Quick Books have allowed Southern Cal Management to professionally generate reports and documents for our current client list and now, confidently seek an ever expanding client base. While our employees have learned much from your tutorials, I believe Adcon’s ability to review and upgrade our monthly reports offers an even greater sense of security.

I just wanted to make sure that you realize how appreciative Southern Cal Management is for all your hard work and professional service. Knowing that we have a company like Adcon to support our growing business is invaluable.

With much appreciation,

Christopher Moore  
Partner  
Southern Cal Management
